# Chairman's Statement

Tex Group turnover for the six months to 30th June 2010 amounted to £16m, an 8% decrease over the comparable figure in 2009. Pre-tax profit totalled £312k which represents a reduction of 40% over the previous year.

Sales in the Plastics Division were £9.2m which compares with £8.0m in 2009, an increase reflecting an upturn in demand. This improved volume translates into a £135k increase in operating profit. These improved volumes are currently forecast to continue, but in the current climate the Division remains cautious.

The Engineering Division saw a 35% decrease in turnover to £4.9m compared to the same period in 2009. Operating profit decreased from £852k to £237k reflecting the impact of the lower sales. The shortfall in turnover was due to the absence of larger projects that had contributed to the strong first half in 2009. Performance in the second half is expected to remain profitable and to be in line with the first half.

In the Boards & Panels Division, turnover stabilised at just under £2.0m. As a result of the cost savings, the loss on this turnover level was less

than in 2009. Given the losses, further restructuring is being considered, depending upon volume expectations.

The Group order book has been maintained at the reduced level noted in last year's report. We can see no reason to expect trading conditions to improve for the foreseeable future.

Cost will continue to be controlled in line with the trading levels, with cash flow being a priority consideration.

The Board is proposing to pay an interim dividend of 1.0 pence (2009: 1.0 pence) which will be paid on 11th October 2010 to shareholders on the register as at 17th September 2010.

# Notes to the Condensed Consolidated Financial Statements

## 1. Basis of preparation

The condensed financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards as adopted by EU and in accordance with International Accounting Standard (IAS) 34 Interim Financial Reporting.

The comparative figures for the financial year ended 31st December 2009 are not the Company's statutory accounts for that financial year. Those accounts have been reported on by the Company's auditors and delivered to the Registrar of Companies. The report of the auditors was (i) unqualified, (ii) did not include a reference to any matters to which the auditors drew attention by way of emphasis without qualifying their report, and (iii) did not contain a statement under section 498 (2) or (3) of the Companies Act 2006.

## 2. Significant accounting policies

The condensed financial statements have been prepared under the historical cost convention, except for the revaluation of certain properties and financial instruments. The same accounting policies, presentation and methods of computation are followed in these condensed financial statements as were applied in the preparation of the Group's financial statements for the year ended 31st December 2009.

## 3. Segment information

The following is an analysis of the revenue and results for the period, analysed by business segment, the Group's primary basis of segmentation.
